Facilitating Success

Championing small to mid-sized companies

At Cotanum, we specialise in assisting small to mid-sized industrial manufacturers and suppliers. We help them to gain the foothold they need to further their business in the European marketplace.

Our clients are primarily SMEs in export sales with the capability and drive to succeed in a new market. They may not have the budget or structure of larger companies, but they possess equal determination and potential.

Guiding your business into Europe

Europe is a competitive market and one in which your competitors are likely to be active. In order for your business to enter Europe and thrive, you need a local partner to assist you in tackling the initial challenges.

At Cotanum, we are not only consultants, but experienced hands-on engineers and businesspeople with years of experience in sales and sales management. We understand the legal, logistical and cultural challenges you face. We have the capability to guide you through these challenges and achieve real, tangible results in export sales.

Retain your Focus, Achieve Success

Dedication to growing your business is at the heart of our business ethic. With Cotanum as your partner, you will gain peace of mind that knowledgeable experts are working to further your company, leaving you to focus on your core business activities.
